RECEIVED

Dear Mrs. Bose:

I am writing to you today as a strong supporter of Dominion Cove Point. The area is in dire need of jobs and economic stability, and this development is sure to bring both. There will be millions of dollars in tax revenues for the community and billions in sales revenues for local businesses, as well as thousands of new construction jobs during the expansion and many new full-time jobs at Cove Point. This project is exactly what we need, and the environment is sure to be cared for judging by the depth of Dominion's research and the thoughtfulness of their planning. The ones who oppose this project have asked for an extension on the public comment period merely as a delay tactic, but the benefits of this project are needed as soon as possible.

Thank you,

Carol Nietmann
