BOARD OF PUBLIC WORKS

As a member of the Calvert County community, I am greatly interested in the benefits that the Dominion Cove Point project will bring to our area.

I have a restaurant in Lusby that would certainly be impacted positively from the economic boost that the conversion of the facility would bring, and there are countless other local businesses that could stand to gain from what Dominion has planned.

The opposition's concerns have been shown to be unwarranted by more than adequate research on your part, as well as thoughtful planning from Dominion. For what it's worth, I give Cove Point the green light!

Thank you,

Jeffrey Bagarus
