BOARD OF PUBLIC WORKS

Dear Kimberly Bose,

Your exhaustive report was thorough, and well researched and documented. I know that there are a large majority of us in Calvert County who are anxious to see this project get off the ground. And yet I am also aware that there exists a small, but vocal minority of naysayers who are opposing this project. They tend to shoot down **ANY** new enterprise that would move this county forward! However, their objections are **NOT** founded on the kind of sound science and thorough study that your Environmental Impact Report so clearly is.

Therefore, I ask you today, to not let these misguided opponents stamp out the voice of our clear majority. Our economic future depends on this project moving forward. Please, honor the true voice and will of our residents and allow this facility to be built!

Best,

Joseph Arendes  
Lusby, MD 20657
