Dear Mrs. Bose,

The proposed conversion of the facilities at Dominion Cove Point presents an excellent opportunity to address some of the needs of Calvert County.

We need every dime and every opportunity for business growth we can get here. The millions of dollars in tax revenue that the project could bring is a step towards what this state needs, and the jobs created as a result of this growth are important locally.

Dominion has already proven that they have a thoughtful plan that takes care of the environment, the local community, and the entire state of Maryland. Please do not delay this approval any longer with an extended public comment period. We need this project as soon as possible.

Thank you,

Richard Baldus
