RECEIVED

Dear Ms. Kimberly Bose,

FERC has gone above and beyond to complete their Environmental Assessment of the Dominion Cove Point LNG export terminal. By reading over 20,000 pages of facts and research, you have concluded that the export operation in Calvert County will not significantly impact the environment. In fact, the project will only bring progress to our county through the boost of financial stability and job opportunities.

Two years of extensive research by FERC has proven that the Dominion Cove Point LNG export terminal will be good for our county, and good for our country. I'm in favor of this project and would like to see it move forward without another moment wasted.

Thank you,

Robert Corwin
