Kimberly Bose
Secretary, Federal Energy Regulatory Commission
888 First Street NE, Room 1A
Washington, D.C. 20426

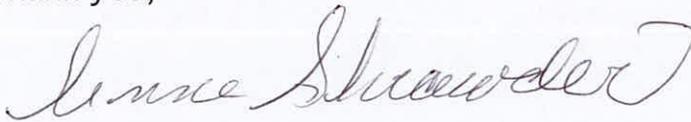

June 7, 2014

Dear Ms. Bose,

The Cove Point proposed project to further develop their facilities seems like a clear win for this community. I've been here for 20 years, and the need for local jobs is more pressing than ever. I drove a 40-mile commute for 20 years, and my husband still commutes 60 miles every day. Cove Point will provide many jobs for people like us in the community, and they have shown that they will do so in a careful way, looking out for the environment, and continuing their good relationship with the county. This development will bring millions of dollars to our lackluster tax base, as well as jobs to the area.

Governor Martin O'Malley and MBPW Executive Secretary Sheila McDonald will also be receiving a copy of this letter for the record. I would like to make my support as strong as possible.

Thank you,

Anne Shrawder
