REVISED

SUPPLEMENTAL

28-S. SERVICES CONTRACT (cont'd)

Agency Remarks (cont'd):

Due to the highly specialized nature of the services under the contract and because the majority of costs are for specialized personnel who are certified in cancer record coding, the ability to subcontract work is limited, and no MBE or VSBE participation was established. However, the single **proposal** vendor selected is an MBE (certification #15-366665).

On November 14, 2024, a notice announcing the availability of the Request for Proposal (RFP) was published on eMaryland Marketplace Advantage (eMMA). In addition, the solicitation was directly sent to eighteen (18) prospective vendors. A total of two (2) **proposals** were received in response.

Following its review, the Evaluation Committee determined that one (1) **proposal** was not reasonably susceptible for award and rated the technical proposal as *Unsatisfactory*. The proposal lacked adequate risk-mitigation strategies, failed to clearly outline secure migration procedures, and did not sufficiently demonstrate compliance with security and privacy standards or the ability to protect sensitive data. In addition, the Offeror declined to submit the required SOC 2 report, opting instead to provide a heavily redacted alternative assessment that the Committee was unable to properly evaluate.

The remaining Offeror, Myriddian, LLC, also the incumbent Contractor, was deemed reasonably susceptible for award based on the evaluation of proposals.

[...] The proposed pricing was evaluated against historical contract data to determine fairness and reasonableness. The annual cost over the five-year term ranges from \$1,275,525.27 to \$1,327,576.93, which is lower than the \$1,370,291 currently being paid by the Maryland Cancer Registry for the same services in Fiscal Year 2025. Myriddan LLC has reduced its rates annual by at least 3.12%. Based on a comparison of historical rates offered to the State of Maryland, it has been determined that the pricing is fair and reasonable.
