<u>Agenda Item</u>	<u>First Name</u>	<u>Last Name</u>	<u>Organization</u>	<u>Position</u>
65-CGL	ADDIE	ECKARDT		Support

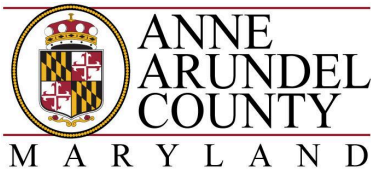

(Richardson Museum) As a Senator I have supported this project to maintain existing structures and to grow and expand the vision and mission of the organization. Strategically located on the waterfront in Cambridge preservation of Dorchesters rich cultural heritage and the development of marine trades including the skilled craft of wooden boat building is timely This organization can become a lightening rod for future Waterfront development and workforce sustainability. I wholeheartedly support this funding as well as any future funding to complement the private funds anticipated.

------	-------	------------	--	--------

If all four contractors submitted proposals and all four were appropriate to receive an award, why is the state paying \$600,000 MORE to the contractor that was not the cheapest? If the proposals are all acceptable, that means they would pass in a pass/fail scenario. If they pass, it should come down to price.
