Interested in the Subject Application
for a State Wetlands License

RE: Tidal Wetlands Case No. 19-0349

The Maryland Department of Environment forwarded a favorable Report and Recommendation (R&R) to this office for a wetlands license for a project at Haven Harbour South. You are receiving this letter because you are an interested person. If you have "any continued exception to the recommendations" set forth in the R&R, you must submit them in writing to me no later than August 1, 2019.

The purpose of the project is to replace an existing potable water line, install a fire suppression water line, and install a communications line. We ask you to access the project Report and Recommendation from MDE at the BPW Wetlands Administration web page on the left column under LICENSES at <https://bpw.maryland.gov/wetlands/Pages/default.aspx>. If you require a hard copy of the Report and Recommendation, please contact me.

The request for a wetlands license will be scheduled for action by the Board of Public Works (Governor, Comptroller and Treasurer) at a future meeting. To assist my office in the review of any outstanding issues and to provide accurate information to the Board members, **please let me know of any unresolved concerns in writing, if any, by the close of business on Thursday, August 1, 2019.**

Thank you for your cooperation and interest.

Sincerely,

William Morgante
Wetlands Administrator
